# Securely Unlocking Generative AI

Keri Rich

CPO at Liminal

Generative AI is Prolific

2 Months

Length of time it took Chat GPT to reach 100 million monthly active users

9K+

Number of Gen AI-enabled applications released in the past year

80%

Percentage of organizations expected to adopt generative AI by 2026

Organizations are Restricting Access

Liminal

68%

of enterprise professionals report being fully blocked or partially restricted from utilizing Generative AI

Specific factors limiting or preventing employees from using generative AI

1   Data privacy + security **(47%)**

2   Company policies **(39%)**

3   Quality of output **(34%)**

4   Insufficient access to tools **(39%)**

Understanding the Threat

| 01 | Regulatory Compliance Risk |

| 02 | Sensitive Data and IP Risk |

| 03 | Reputational Risk |

We help enterprises say yes to generative AI

Direct Interaction
Interacting directly with generative AI models

Apps You Use
Using generative AI within applications that are generative AI-enabled

Apps You Build
Deploying generative AI in your own applications and products
